

# HUGO ETTER AG

PRECISION IN  
MECHANICAL MANUFACTURING

---

TURNING

MILLING

MEASURING

# WHO WE ARE

---

Family business  
in 2nd generation

Over 50 years  
of experience

15 motivated  
employees

Location Wila (ZH) –  
central and reliable

Focus on mechanical  
engineering and industry

# WHAT WE DO

From the initial idea to the finished component – everything from a single source.

## CNC TURNING

Precision turned parts up to  
Ø 700 mm in diameter and  
up to 3'250 mm in length.

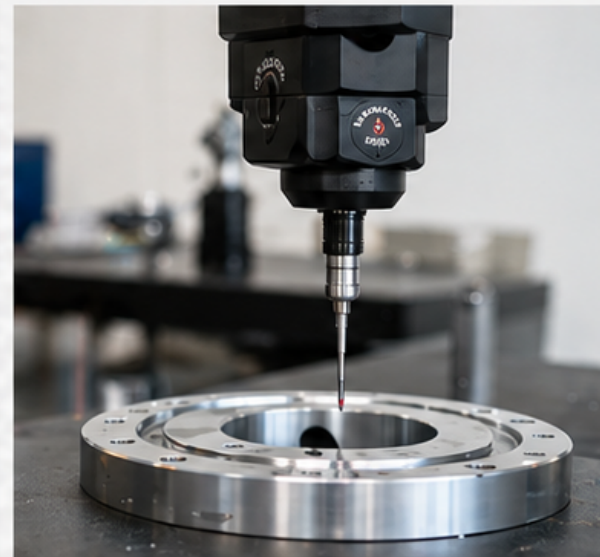

## CNC MILLING

Workpieces up to  
1400 × 950 × 1200 mm  
with the highest precision.

## ASSEMBLIES & COMPLETE MANUFACTURING

Complex assemblies – fully  
assembled and tested,  
everything from a single source.

## MEASURING & QUALITY

State-of-the-art measurement  
technology for maximum  
quality and safety.

PRECISION | RELIABILITY | FLEXIBILITY

# OUR CAPABILITIES

Turning up to  $\varnothing$  700 mm /  
length up to 3'250 mm

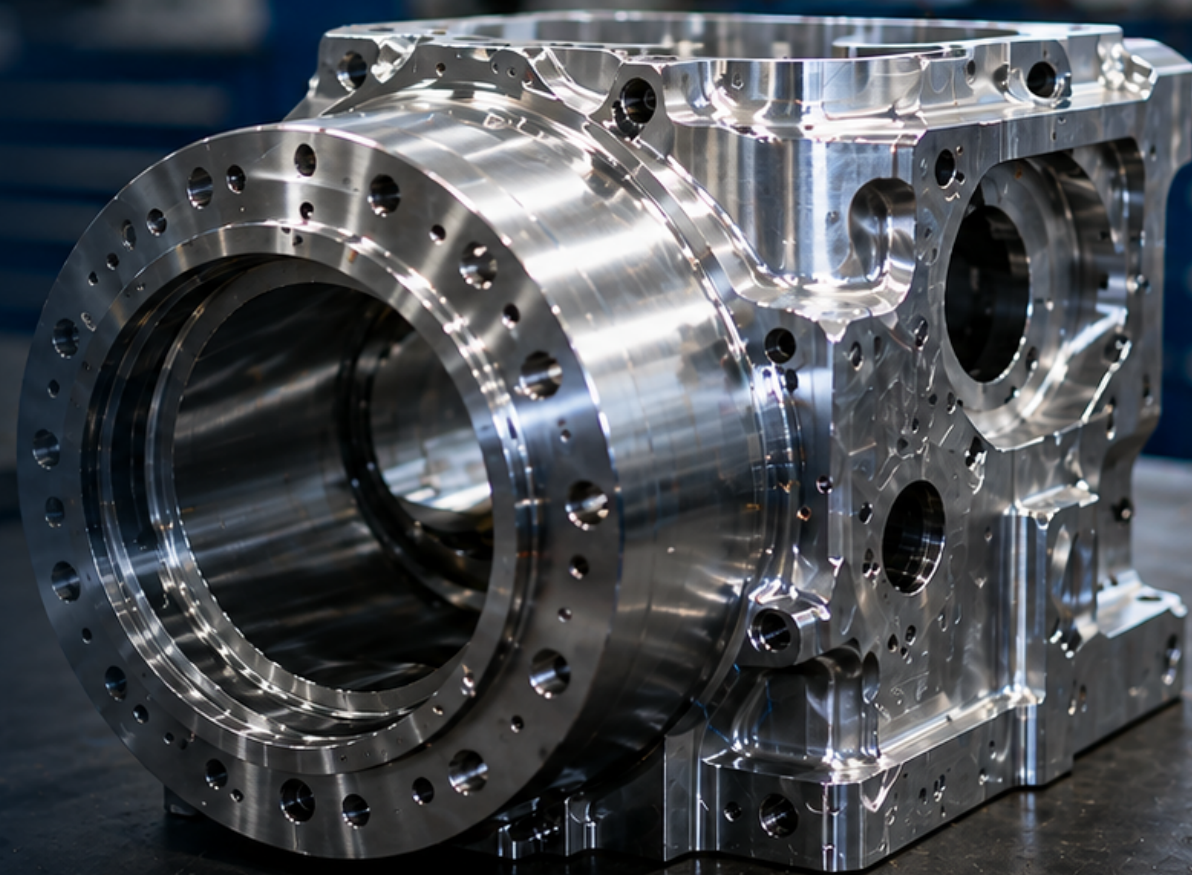

Milling up to  
 $1400 \times 950 \times 1200$  mm

4-axis machining

Small to large series

# WHY ETTER?

## SWISS QUALITY

Precision, reliability  
and the highest standards –  
100% Swiss.

## PERSONAL AND CLOSE

Direct contact, short  
communication channels  
and a partner you can  
rely on.

## HIGH MANUFACTURING DEPTH

From machining to  
assembly – everything  
from a single source.

## FLEXIBLE BATCH SIZES

From small to large series –  
we adapt to your  
requirements.

## ON-TIME AND RELIABLE

We keep what we promise –  
you can count on it.

SMALL TO LARGE SERIES
